Public More Likely To Trust Democratic Party To Do A Better JobDealing With Most Health Care Issues

The KFF Election Tracking Poll finds the Democratic Party has the edge over the Republican Party on the public’s trust to do a better job dealing with a series of health issues. Six in ten say they trust the Democratic Party to do a better job dealing with women’s access to reproductive health services (61 percent), maintaining Medicaid expansion (58 percent), continuing the Affordable Care Act’s protections for people with pre-existing conditions (58 percent), and improving the health of minority populations (58 percent). In fact, at least twice as many say they trust the Democratic Party to do a better job on these issues than say the same about the Republican Party. The Democratic Party also has an edge over the Republican Party on the future of the ACA (54 percent vs. 30 percent) and improving rural health care (50 percent vs. 32 percent). Less than half of the public say they trust either party on addressing the prescription painkiller addiction epidemic, reducing health care costs, and controlling Medicaid spending.

The public’s trust in parties largely falls along partisan lines with majorities of Democrats saying they trust the Democratic Party and majorities of Republicans trusting the Republican Party. A larger share of independents say they trust the Democratic Party than the Republican Party on many issues including
