

# Landscape of Approved vs. Pending Section 1115 Medicaid Demonstration Waivers, August 8, 2018

NOTES: Some states have multiple approved and/or multiple pending waivers, and many waivers are comprehensive and may fall into a few different areas. Therefore, the total number of pending or approved waivers across states cannot be calculated by summing counts of waivers in each category. Pending waiver applications are not included here until they are officially accepted by CMS and posted on Medicaid.gov. For more detailed information on each Section 1115 waiver, download the detailed approved and pending waiver tables posted on the tracker page. "MLTSS" = Managed long-term services and supports. On June 29, 2018, the DC federal district court issued a decision in *Stewart v. Azar*. The court invalidated the waiver approval and sent it back to HHS to reconsider the Kentucky HEALTH Section 1115 waiver program. The separate "institution for mental disease" substance use disorder payment waiver continues.
