# KFF Coronavirus Poll – March 2020

## METHODOLOGY

This *KFF Coronavirus Poll* was designed and analyzed by public opinion researchers at the Kaiser Family Foundation (KFF). The survey was conducted March 11th -15th, 2020, among a nationally representative random digit dial telephone sample of 1,216 adults ages 18 and older, living in the United States, including Alaska and Hawaii (note: persons without a telephone could not be included in the random selection process). Computer-assisted telephone interviews conducted by landline (246) and cell phone (970, including 702 who had no landline telephone) were carried out in English and Spanish by SSRS of Glen Mills, PA. To efficiently obtain a sample of lower-income and non-White respondents, the sample also included an oversample of prepaid (pay-as-you-go) telephone numbers (25% of the cell phone sample consisted of prepaid numbers). Both the random digit dial landline and cell phone samples were provided by Marketing Systems Group (MSG). For the landline sample, respondents were selected by asking for the youngest adult male or female currently at home based on a random rotation. If no one of that gender was available, interviewers asked to speak with the youngest adult of the opposite gender. For the cell phone sample, interviews were conducted with the adult who answered the phone. KFF paid for all costs associated with the survey.

The combined landline and cell phone sample was weighted to balance the sample demographics to match estimates for the national population using data from the Census Bureau's 2018 American Community Survey (ACS) on sex, age, education, race, Hispanic origin, and region along with data from the 2010 Census on population density. The sample was also weighted to match current patterns of telephone use using data from the July-December 2018 National Health Interview Survey. The weight takes into account the fact that respondents with both a landline and cell phone have a higher probability of selection in the combined sample and also adjusts for the household size for the landline sample, and design modifications, namely, the oversampling of prepaid cell phones and likelihood of non-response for the re-contacted sample. All statistical tests of significance account for the effect of weighting.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Note that sampling error is only one of many potential sources of error in this or any other public opinion poll. Kaiser Family Foundation public opinion and survey research is a charter member of the [Transparency Initiative of the American Association for Public Opinion Research](#).

Group	N (unweighted)	M.O.S.E.
Total	1,216	±3 percentage points
<b>Party Identification</b>		
Democrats	356	±6 percentage points
Republicans	310	±6 percentage points
Independents	380	±5 percentage points
<b>Age</b>		
18-39	424	±5 percentage points
40-59	373	±5 percentage points
60-74	256	±7 percentage points
75 and older	136	±10 percentage points
60 and older	392	±5 percentage points

Notes for reading the topline:

- Percentages may not always add up to 100 percent due to rounding.
- Values less than 0.5 percent are indicated by an asterisk (\*).
- "Vol." indicates a response was volunteered by the respondent, not offered as an explicit choice
- Questions are presented in the order asked; question numbers may not be sequential.

All trends shown in this document come from the Kaiser Health Tracking Polls

**READ TO ALL:** Now I want to ask you some questions about the recent coronavirus, also known as COVID-19.

Q1. As far as you know, have public health experts recommended (INSERT ITEM) as a way to help slow the spread of coronavirus, or not? How about (INSERT NEXT ITEM), have public health experts recommended this as a way to help slow the spread of coronavirus, or not? (scramble items a-d)

	Yes, recommended	No, not recommended	Don't know/Refused (NET)	Don't know	Refused
a. Frequent hand washing 3/20	97	2	1	1	*
b. Healthy people wearing facemasks in public 3/20	25	69	6	6	*
c. Avoiding gatherings with large numbers of people 3/20	88	9	3	3	*
d. Staying home if you are feeling sick 3/20	90	9	1	1	-

Q2. As far as you know, is each of the following a way that coronavirus is transmitted, or not? First, (INSERT ITEM), is this a way that coronavirus is transmitted, or not? How about (INSERT NEXT ITEM)? (READ IF NECESSARY: Is this a way that coronavirus is transmitted, or not?) (scramble items a-c)

	Yes	No	Don't know/Refused (NET)	Don't know	Refused
a. Being in close physical proximity with someone who is infected 3/20	90	7	3	3	*
b. Touching surfaces that contain small amounts of bodily fluids from someone who is infected 3/20	91	5	4	4	-
c. Through mosquito bites 3/20	12	76	12	12	-

Q3. For each of the following please tell me if you think this is a common symptom of coronavirus, or not. First, (INSERT ITEM), is this a symptom of coronavirus, or not? How about (INSERT NEXT ITEM)? (READ IF NECESSARY: Is this a common symptom of coronavirus, or not?) (scramble items a-d)

	Yes, a symptom	No, not a symptom	Don't know/Refused (NET)	Don't know	Refused
a. Fever 3/20	95	3	2	2	-
b. Dry cough 3/20	80	14	6	6	-
c. Nasal congestion 3/20	56	37	7	7	-
d. Rash 3/20	8	85	7	7	-

Q4. Compared to other groups, do you think (INSERT ITEM) have a higher risk of developing serious medical issues if they become infected with coronavirus, or not? How about (INSERT NEXT ITEM)? (READ IF NECESSARY: Compared to other groups, do you think (ITEM) have a higher risk of developing serious medical issues if they become infected with coronavirus, or not?) (scramble items a-c)

	Yes, have a higher risk	No, do not have a higher risk	Don't know/Refused (NET)	Don't know	Refused
a. People over the age of 60 3/20	96	3	1	1	*
b. Children 3/20	40	57	4	3	*
c. People with chronic health conditions 3/20	98	1	1	1	*

(Rotate Q5 & Q6)

Q5. As far as you know, is there a vaccine to protect people from the current coronavirus, also known as COVID-19, or not?

	3/20
Yes	7
No	89
Don't know/Refused (NET)	4
Don't know	4
Refused	-

Q6. As far as you know, does the vaccine for influenza, or seasonal flu, protect people from the current coronavirus, also known as COVID-19, or not?

	3/20
Yes	7
No	86
Don't know/Refused (NET)	7
Don't know	7
Refused	*

Q7. As far as you know, does the vaccine for influenza, or seasonal flu, protect people from the current coronavirus, also known as COVID-19, or not? As far as you know, do most people infected with coronavirus (recover without developing serious complications), or do most people (develop serious complications that require intensive care)? (rotate 1-2,2-1)

	3/20
Most recover without developing serious complications	65
Most develop serious complications that require intensive care	23
Don't know/Refused (NET)	12
Don't know	12
Refused	*

Q8. As far as you know, if someone thinks they are having symptoms of coronavirus, should they (stay home and call a doctor or medical provider) or should they (seek health care immediately at an emergency room or urgent care facility)? (rotate 1-2,2-1)

	3/20
Stay home and call a doctor or medical provider	73
Seek health care immediately at an emergency room or urgent care facility	25
Something else (Vol.)	*
Don't know/Refused (NET)	2
Don't know	1
Refused	*

Q9. Do you feel you have enough information about how to protect yourself and your family from coronavirus, or not?

	3/20
Yes	83
No	16
Don't know/Refused (NET)	1
Don't know	1
Refused	*

Q10. Do you feel that worry or stress related to coronavirus has had a negative impact on your mental health, or not? (IF YES ASK: Was that a major impact or a minor impact?)

	3/20
Yes (NET)	32
Yes – major impact	14
Yes – minor impact	18
No	67
Don't know/Refused (NET)	1
Don't know	1
Refused	*

Q11. In general, how much do you trust (INSERT ITEM) to handle public health emergencies like the current coronavirus outbreak? How about (INSERT NEXT ITEM)? (READ IF NECESSARY: Do you trust (INSERT ITEM) a great deal, a fair amount, not much or not at all to handle public health emergencies like the current coronavirus outbreak?) (READ LIST) (rotate items a-c)

	Trust (NET)	A great deal	A fair amount	Don't trust (NET)	Not much	Not at all	Don't know/Refused (NET)
a. Donald Trump							
3/20	44	24	20	51	17	34	5
b. Bernie Sanders							
3/20	41	18	23	48	18	30	11
c. Joe Biden							
3/20	44	18	26	45	18	27	11

Q12. How much do you trust (INSERT ITEM) to provide reliable information on coronavirus? How about (INSERT NEXT ITEM)? (READ IF NECESSARY: Do you trust (Him/Them) a great deal, a fair amount, not much or not at all to provide reliable information on coronavirus?) (READ LIST) (rotate items a-f)

	Trust (NET)	A great deal	A fair amount	Don't trust (NET)	Not much	Not at all	Depends (Vol)	Don't know/Refused (NET)
a. President Trump 3/20	46	23	23	51	18	33	*	3
b. The U.S. Centers for Disease Control and Prevention, or CDC 3/20	85	48	37	13	10	3	*	2
c. The World Health Organization, or WHO 3/20	77	41	37	19	12	7	*	4
d. Your state government officials 3/20	71	28	43	27	18	9	*	2
e. Your local government officials 3/20	70	25	45	28	19	9	-	2
f. The news media 3/20	47	15	31	51	26	25	1	1

Q13. How worried, if at all, are you that (INSERT ITEM)? Are you very worried, somewhat worried, not too worried or not at all worried? How about that (INSERT NEXT ITEM)? (IF NECESSARY: Are you very worried, somewhat worried, not too worried or not at all worried that (INSERT ITEM)?) (scramble items a-e)

	Very/ Somewhat worried (NET)	Very worried	Somewhat worried	Not too/Not at all worried (NET)	Not too worried	Not at all worried	Not Applicable	Don't Know/ Refused (NET)	
a. You or someone in your family will get sick from the Coronavirus									
3/20	62	27	36	37	21	16	-	*	N=1,216
