

UNINSURED ADULTS IN STATES THAT DID NOT EXPAND WHO WOULD BECOME ELIGIBLE FOR MEDICAID UNDER EXPANSION

The ACA expanded Medicaid coverage to nearly all adults with incomes up to 138% of the Federal Poverty Level (\$17,236 for an individual in 2019). If all states were to expand their Medicaid program, **4.4 million** uninsured nonelderly adults would become eligible for coverage, **39%** of the uninsured nonelderly adult population in non-expansion states in 2017.

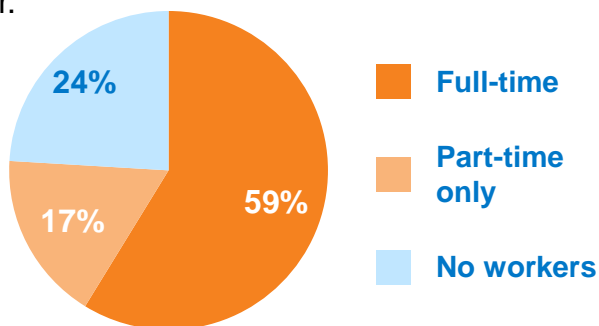

75% of those who would become eligible under Medicaid expansion are childless adults, a group historically excluded from Medicaid eligibility.

2019 Median Medicaid Eligibility Levels in Non-Expansion States

Who Are Uninsured Adults Who Would Become Eligible for Medicaid if All States Expanded?

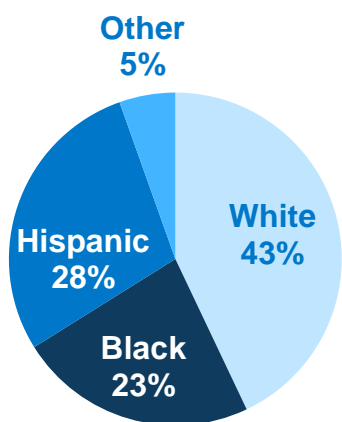

More than **3 in 4** are in a family with at least one worker.

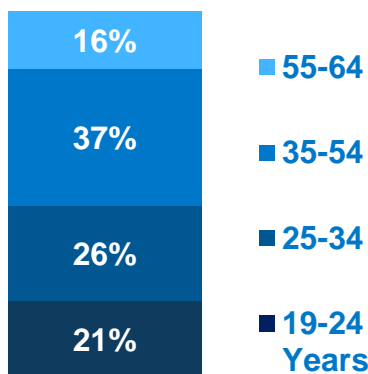

Over **half** are adults living below poverty.

Nearly **6 in 10** are people of color.

Almost **4 in 10** are middle-aged and 16% are near-elderly, who are more likely to have substantial health needs.

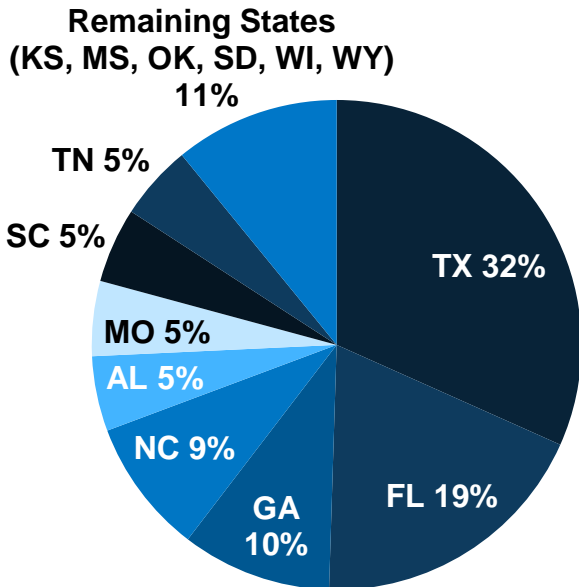

2.2 million women

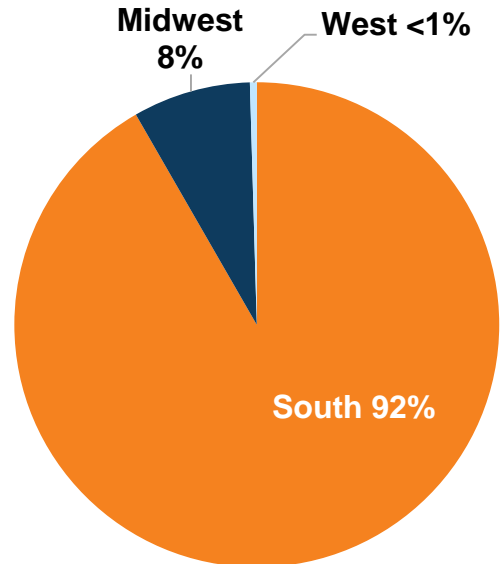

Half are women even though many women qualify for Medicaid as caregiver parents.

What is the Potential Impact of Medicaid Expansion?

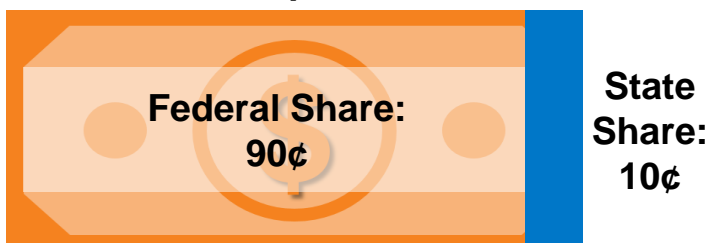

How Would the Medicaid Expansion be Financed?

The federal government pays most of the cost of the ACA Medicaid expansion: 90% in FY 2020 and beyond.

For traditional Medicaid, the federal share of cost varies by state from a minimum of 50% to a high of 77% in FY 2020.
