METHODOLOGY

This Kaiser Health Tracking Poll was designed and analyzed by public opinion researchers at the Kaiser Family Foundation (KFF). The survey was conducted June 2-9, 2015, among a nationally representative random digit dial telephone sample of 1,200 adults ages 18 and older, living in the United States, including Alaska and Hawaii (note: persons without a telephone could not be included in the random selection process). Computer-assisted telephone interviews conducted by landline (480) and cell phone (720, including 412 who had no landline telephone) were carried out in English and Spanish by Princeton Data Source under the direction of Princeton Survey Research Associates International (PSRAI). Both the random digit dial landline and cell phone samples were provided by Survey Sampling International, LLC. For the landline sample, respondents were selected by asking for the youngest adult male or female currently at home based on a random rotation. If no one of that gender was available, interviewers asked to speak with the youngest adult of the opposite gender. For the cell phone sample, interviews were conducted with the adult who answered the phone. KFF paid for all costs associated with the survey.

The combined landline and cell phone sample was weighted to balance the sample demographics to match estimates for the national population using data from the Census Bureau’s 2013 American Community Survey (ACS) on sex, age, education, race, Hispanic origin, nativity (for Hispanics only), and region along with data from the 2010 Census on population density. The sample was also weighted to match current patterns of telephone use using data from the January-June 2014 National Health Interview Survey. The weight takes into account the fact that respondents with both a landline and cell phone have a higher probability of selection in the combined sample and also adjusts for the household size for the landline sample. All statistical tests of significance account for the effect of weighting.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Note that sampling error is only one of many potential sources of error in this or any other public opinion poll. Kaiser Family Foundation public opinion and survey research is a charter member of the Transparency Initiative of the American Association for Public Opinion Research.

Trend Information:
01/11: Kaiser Family Foundation/Harvard School of Public Health The Public’s Health Care Agenda for the 112th Congress (January 4-14, 2011)
03/08: Kaiser Family Foundation/USA Today/Harvard School of Public Health The Public on Prescription Drugs and Pharmaceutical Companies (January 3-23, 2008)
1. As you may know, a health reform bill was signed into law in 2010. Given what you know about the health reform law, do you have a generally (favorable) or generally (unfavorable) opinion of it? [GET ANSWER THEN ASK: Is that a very (favorable/unfavorable) or somewhat (favorable/unfavorable) opinion?] [INTERVIEWER NOTE: If respondent asks if the health reform law refers to the Affordable Care Act or Obamacare, please answer “yes”] (ROTATE OPTIONS IN PARENTHESES)

D1. Record respondent’s sex

- Male: 49
- Female: 51

D2b. Are you currently married, living with a partner, widowed, divorced, separated, or have you never been married?

- Married: 45
- Living with a partner: 7
- Widowed: 7
- Divorced: 10
- Separated: 3
- Never been married: 27
- Don’t know/Refused: 1

D3. What best describes your employment situation today? (READ IN ORDER)

- Employed full-time: 43
- Employed part-time: 12
- Unemployed and currently seeking employment: 6
- Unemployed and not seeking employment: 2
- A student: 7
- Retired: 16
- On disability and can’t work: 6
- Or, a homemaker or stay at home parent? 6
- Don’t know/Refused: *

32. Thinking about your family’s financial situation, would you say you are living comfortably, just getting by, or struggling to make ends meet?

- Living comfortably: 49
- Just getting by: 37
- Struggling to make ends meet: 13
- Don’t know/Refused: 1

33. During the past year, have you or has someone else living in your household (INSERT AND RANDOMIZE), or not?

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>Don’t know/Refused</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Been laid off or lost a job</td>
