Wyoming					Y	133%

SOURCE: Based on a national survey conducted by the Kaiser Commission on Medicaid and the Uninsured with the Georgetown University Center for Children and Families, 2017.

Table presents rules in effect as of January 1, 2017.

TABLE 15 NOTES

1. N/A (M-CHIP) responses indicate that the state does not provide a separate CHIP program for uninsured children.
2. In a number of states, the income at which premiums or cost sharing begins may vary by the child's age since Medicaid and CHIP eligibility levels vary by age and some states exempt younger children from cost sharing. The reported income eligibility limits at which premiums and cost sharing begin do not reflect the five percentage points of the federal poverty level (FPL) disregard that applies to eligibility determinations, although this disregard may apply when the income level at which premiums or cost sharing applies aligns with the eligibility cutoff between Medicaid and separate CHIP programs.
3. Tennessee has waiver authority to charge cost sharing for children between 100% and 133% FPL.
4. Utah has a \$300 deductible in CHIP.
