NC indicates that data were not collected for the period.

1. The numbers in this table reflect the net change in actions taken by states from year to year. Specific strategies may be adopted and retracted by several states during a given year.

2. These counts do not include states that may have provided coverage above the levels shown using state-only funding or provide a more limited benefit package.

3. This count includes Wisconsin's coverage of adults to 100% FPL.

4. Required across all states under the Affordable Care Act (ACA). See S. Artiga, M. Musumeci, and R. Rudowitz, "Medicaid Eligibility, Enrollment Simplification, and Coordination Under the Affordable Care Act: A Summary of CMS's March 23, 2012 Final Rule," December 2012. Mitigation strategies are in place in cases in which requirements have not yet been met.
