KFF COVID-19 Vaccine Monitor

October 2021

METHODOLOGY

This *KFF COVID-19 Vaccine Monitor* was designed and analyzed by public opinion researchers at the Kaiser Family Foundation (KFF). The survey was conducted October 14-24, 2021, among a nationally representative random digit dial telephone sample of 1,519 adults ages 18 and older (including interviews from 309 Hispanic adults and 305 non-Hispanic Black adults), living in the United States, including Alaska and Hawaii (note: persons without a telephone could not be included in the random selection process). Phone numbers used for this study were randomly generated from cell phone and landline sampling frames, with an overlapping frame design, and disproportionate stratification aimed at reaching Hispanic and non-Hispanic Black respondents as well as those living in areas with high rates of COVID-19 vaccine hesitancy. Stratification was based on incidence of the race/ethnicity subgroups and vaccine hesitancy within each frame. High hesitancy was defined as living in the top 25% of counties as far as the share of the population not intending to get vaccinated based on the U.S. Census Bureau's Household Pulse Survey. The sample also included 87 respondents reached by calling back respondents that had previously completed an interview on the KFF Tracking poll at least nine months ago. Another 46 interviews were completed with respondents who had previously completed an interview on the SSRS Omnibus poll (and other RDD polls) and identified as Hispanic (including 23 in Spanish) or non-Hispanic Black ($n=62$). Computer-assisted telephone interviews conducted by landline (168) and cell phone (1,351, including 1,038 who had no landline telephone) were carried out in English and Spanish by SSRS of Glen Mills, PA. To efficiently obtain a sample of lower-income and non-White respondents, the sample also included an oversample of prepaid (pay-as-you-go) telephone numbers (25% of the cell phone sample consisted of prepaid numbers) Both the random digit dial landline and cell phone samples were provided by Marketing Systems Group (MSG). For the landline sample, respondents were selected by asking for the youngest adult male or female currently at home based on a random rotation. If no one of that gender was available, interviewers asked to speak with the youngest adult of the opposite gender. For the cell phone sample, interviews were conducted with the adult who answered the phone. KFF paid for all costs associated with the survey.

The combined landline and cell phone sample was weighted to balance the sample demographics to match estimates for the national population using data from the Census Bureau's 2019 U.S. American Community Survey (ACS), on gender, age, education, race, Hispanic origin, and region, within race-groups, along with data from the 2010 Census on population density. The sample was also weighted to match current patterns of telephone use using data from the July-December 2020 National Health Interview Survey. The weight takes into account the fact that respondents with both a landline and cell phone have a higher probability of selection in the combined sample and also adjusts for the household size for the landline sample, and design modifications, namely, the oversampling of potentially undocumented respondents and of prepaid cell phone numbers, as well as the likelihood of non-response for the re-contacted sample. All statistical tests of significance account for the effect of weighting.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Sampling error is only one of many potential sources of error and there may be other unmeasured error in this or any other public opinion poll. Kaiser Family Foundation public opinion and survey research is a charter member of the [Transparency Initiative of the American Association for Public Opinion Research](#).

This work was supported in part by grants from the Chan Zuckerberg Initiative DAF (an advised fund of Silicon Valley Community Foundation), the Ford Foundation, and the Molina Family Foundation. We value our funders. KFF maintains full editorial control over all of its policy analysis, polling, and journalism activities.

Group	N (unweighted)	M.O.S.E.
Total	1,519	± 3 percentage points
COVID-19 Vaccination Status		
Have gotten at least one dose of the COVID-19 vaccine	1,090	± 4 percentage points
Have not gotten the COVID-19 vaccine	406	± 6 percentage points
Race/Ethnicity		
White, non-Hispanic	794	± 4 percentage points
Black, non-Hispanic	305	± 7 percentage points
Hispanic	309	± 7 percentage points
Party Identification		
Democrats	460	± 6 percentage points
Republicans	341	± 7 percentage points
Independents	475	± 6 percentage points
Child Age Groups		
Parents or guardians of children under 18	393	± 6 percentage points
Parents or guardians of children ages 12-17	202	± 9 percentage points
Parents or guardians of children ages 5-11	219	± 9 percentage points

Notes for reading the topline:

- Percentages may not always add up to 100 percent due to rounding.
- Values less than 0.5 percent are indicated by an asterisk (*).
- "Vol." indicates a response was volunteered by the respondent, not offered as an explicit choice
- Questions are presented in the order asked; question numbers may not be sequential.

All trends shown in this document come from KFF Health Tracking Polls or KFF COVID-19 Vaccine Monitors.

AGE. What is your age?

AGE2. (ASK IF DON'T KNOW OR REFUSED AGE) Could you please tell me if you are between the ages of... (READ LIST)

12/20	35	36	25	3	1	<i>n</i> =1,676

Q3. Do you think (INSERT) is holding back economic growth in your area, or not? (scramble a-b)

	Yes	No	Don't know	Refused
a. The spread of COVID-19				
10/21	57	39	3	*
b. Government restrictions on businesses aimed at slowing the spread of COVID-19				
10/21	55	41	3	*

Q5. How much have you personally returned to activities that you engaged in before the pandemic: (have you basically returned to normal), are you doing some but not all the activities you did before the pandemic, or (are you doing very few of the activities you did before the pandemic)? (rotate text in parentheses)

	10/21
Basically returned to normal	43
Doing some but not all the activities you did before the pandemic	35
Doing very few of the activities you did before the pandemic	15
Never changed activity level during pandemic (Vol.)	6
Don't know	*
Refused	*

ROTATE Q7 AND Q8

Q7. Which comes closer to your view about traveling for the holidays this year: you are planning to travel, you will not be traveling because of concerns about the pandemic, or you don't normally travel for the holidays and are not planning to this year?

	10/21
Planning to travel	28
Will not be traveling because of concerns about the pandemic	15
Don't normally travel for the holidays and are not planning to this year	56
Don't know	1
Refused	*

Q8. Which comes closer to your view about attending holiday gatherings with more than 10 people: you are planning to attend large holiday gatherings this year, you will not be attending gatherings because of concerns about the pandemic, or you don't normally attend holiday gatherings and are not planning to this year?

	10/21
Planning to attend large holiday gatherings this year	48
You will not be attending gatherings because of concerns about the pandemic	22
Don't normally attend holiday gatherings and are not planning to this year	27
Don't know	3
Refused	1

CHILD. Are you the parent or guardian of any child under the age of 18 living in your household?

	10/21
Yes	28
No	72
Don't know/Refused (NET)	*
Don't know	*
Refused	*

CHILDAGE2. How many of your children are (INSERT ITEM)?

Based on those who are a parent or guardian of child under 18

	0/None	At least one child (NET)	1	2 or more	Don't know/Refused	
a. under the age of 5						
10/21	64	35	21	13	1	n=393
b. between the ages of 5 and 11						
10/21	42	57	36	21	1	n=393
c. between the ages of 12 and 17						
10/21	49	50	33	17	1	n=393

Q9. Are any of your children ages 5 and over currently enrolled in in-person school?

Based on those who have a child ages 5 or older

	10/21
Yes	86
No	13
Child is/children are homeschooled (Vol.)	1
Child is/Children are attending school virtually (Vol.)	-
Don't know	-
Refused	-
	n=327

Q10. How worried, if at all, are you that (INSERT ITEM) will get seriously sick from the coronavirus? Are you very worried, somewhat worried, not too worried, or not at all worried?

Item b based on those who are a parent or guardian of child under 18

	Very/ Somewhat worried (NET)	Very worried	Somewhat worried	Not too/Not at all worried (NET)	Not too worried	Not at all worried	They/ a family member has already gotten sick from coronavir us (Vol.)	Don't know/ Refused	
a. You, personally

Refused	*	1	*
	<i>n=484</i>	<i>n=545</i>	<i>n=750</i>

Q21/Q22 Combo table

Based on those who are employed but not self-employed

	10/21	9/21
Yes, employer required vaccination	25	19
No, employer did not require vaccination	73	79
Yes, want employer to require COVID-19 vaccine	21	28
No, do not want employer to require COVID-19 vaccine	51	50
Employer already requires employees to be vaccinated (Vol.)	-	*
Don't know/Refused	1	1
Employer only required vaccination to go into the office/work onsite (Vol.)	*	1
Don't know/Refused	1	1
	<i>n=656</i>	<i>n=709</i>

⁹ In the September 2021 Wave, added "Employer only required vaccination to go into the office/work onsite (Vol.)" as response option.

Q23. If your employer required you to either get the COVID-19 vaccine or get tested weekly, what would you be most likely to do (READ LIST)?

Based on those who have not gotten a COVID-19 vaccine and are employed but not self-employed

	10/21	9/21
Get the vaccine	11	12
Get tested weekly	46	56
Leave your job	37	30
Something else (Vol.)	6	1
Don't know	*	*
Refused	-	*
	<i>n=179</i>	<i>n=185</i>

Q24. What if your employer did not offer the weekly testing option, would you be more likely to get the vaccine or more likely to leave your job?

Based on those who are unvaccinated and would get tested weekly if required by employer

Insufficient sample size to report

Q23/Q24 Combo table

Based on those who are unvaccinated and employed but not self-employed

	10/21
Get the vaccine	11
Get tested weekly	46
Would get the vaccine	6
Would leave their job	35
Something else	1
Don't know/Refused	3
Leave your job	37
Something else (Vol.)	6
Don't know/Refused	*
	<i>n=179</i>

Q25. If your employer requires you to get the COVID-19 vaccine, how likely are you to apply for an exemption?

Based on those who are unvaccinated and employed but not self-employed

	10/21
Very/Somewhat likely	59
Very likely	44
Somewhat likely	15
Not too likely/Not likely at all	38
Not too likely	5
Not likely at all	32
Don't know/Refused	3
	<i>n=179</i>

Q26. What type of exemption will you apply for? A medical exemption, a religious exemption, or another kind of exemption?

Based on those who are very or somewhat likely to apply for an exemption

	10/21
Medical exemption	28
Religious exemption	46
Another kind of exemption	8
Personal choice/right to choose	3
Will apply for both/multiple types of exemption (Vol)	7
Don't know/Refused	8
