# KFF COVID-19 Vaccine Monitor

## March 2021

**KFF**

## METHODOLOGY

This *KFF COVID-19 Vaccine Monitor* was designed and analyzed by public opinion researchers at the Kaiser Family Foundation (KFF). The survey was conducted March 15-22, 2021, among a nationally representative random digit dial telephone sample of 1,862 adults ages 18 and older (including interviews from 476 Hispanic adults and 490 non-Hispanic Black adults), living in the United States, including Alaska and Hawaii (note: persons without a telephone could not be included in the random selection process). Phone numbers used for this study were randomly generated from cell phone and landline sampling frames, with an overlapping frame design, and disproportionate stratification aimed at reaching Hispanic and non-Hispanic Black respondents. Stratification was based on incidence of the race/ethnicity subgroups within each frame. Specifically, the cell phone frame was stratified as: (1) High Hispanic: Cell phone numbers associated with rate centers from counties where at least 35% of the population is Hispanic; (2) High Black: Cell phone numbers associated with remaining rate centers from counties where at least 35% of the population is non-Hispanic Black; (3) Else: numbers from all remaining rate centers. The landline frame was stratified as: (1) High Black: landline exchanges associated with Census block groups where at least 35% of the population is Black; (2) Else: all remaining landline exchanges. The sample also included 190 respondents reached by calling back respondents that had previously completed an interview on the KFF Health Tracking Poll at least nine months ago. Another 402 interviews were completed with respondents who had previously completed an interview on the SSRS Omnibus poll (and other RDD polls) and identified as Hispanic ( $n = 178$ ; including 63 in Spanish) or non-Hispanic Black ( $n=224$ ). Computer-assisted telephone interviews conducted by landline (356) and cell phone (1,506, including 1,093 who had no landline telephone) were carried out in English and Spanish by SSRS of Glen Mills, PA. To efficiently obtain a sample of lower-income and non-White respondents, the sample also included an oversample of prepaid (pay-as-you-go) telephone numbers (25% of the cell phone sample consisted of prepaid numbers) Both the random digit dial landline and cell phone samples were provided by Marketing Systems Group (MSG). For the landline sample, respondents were selected by asking for the youngest adult male or female currently at home based on a random rotation. If no one of that gender was available, interviewers asked to speak with the youngest adult of the opposite gender. For the cell phone sample, interviews were conducted with the adult who answered the phone. KFF paid for all costs associated with the survey.

The combined landline and cell phone sample was weighted to balance the sample demographics to match estimates for the national population using data from the Census Bureau's 2019 U.S. American Community Survey (ACS), on sex, age, education, race, Hispanic origin, and region, within race-groups, along with data from the 2010 Census on population density. The sample was also weighted to match current patterns of telephone use using data from the January- June 2020 National Health Interview Survey and to adjust for non-response bias, predominantly in the callback sample frames, on health insurance coverage, registered voter status, age, and reported vaccination rates (based on the non-callback RDD sample). The weight takes into account the fact that respondents with both a landline and cell phone have a higher probability of selection in the combined sample and also adjusts for the household size for the landline sample, and design modifications, namely, the oversampling of prepaid cell phones and likelihood of non-response for the re-contacted sample. All statistical tests of significance account for the effect of weighting.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Note that sampling error is only one of many potential sources of error in this or any other public opinion poll. Kaiser Family Foundation public opinion and survey research is a charter member of the [Transparency Initiative of the American Association for Public Opinion Research](#).

This work was supported in part by grants from the Chan Zuckerberg Initiative DAF (an advised fund of Silicon Valley Community Foundation), the Ford Foundation, and the Molina Family Foundation. We value our funders. KFF maintains full editorial control over all of its policy analysis, polling, and journalism activities.

Group	N (unweighted)	M.O.S.E.
Total	1,862	± 3 percentage points
<b>COVID-19 Vaccination Status</b>		
Have gotten at least one dose of the COVID-19 vaccine	754	± 5 percentage points
Have not gotten the COVID-19 vaccine	1,103	± 4 percentage points
<b>Race/Ethnicity</b>		
White, non-Hispanic	760	± 4 percentage points
Black, non-Hispanic	490	± 6 percentage points
Hispanic	476	± 6 percentage points
<b>Party Identification</b>		
Democrats	731	± 5 percentage points
Republicans	342	± 7 percentage points
Independents	523	± 6 percentage points

Notes for reading the topline:

- Percentages may not always add up to 100 percent due to rounding.
- Values less than 0.5 percent are indicated by an asterisk (\*).
- "Vol." indicates a response was volunteered by the respondent, not offered as an explicit choice
- Questions are presented in the order asked; question numbers may not be sequential.

All trends shown in this document come from the KFF Health Tracking Polls of KFF COVID-19 Vaccine Monitor:

HISPANIC. Are you, yourself, of Hispanic or Latino background, such as Mexican, Puerto Rican, Cuban, or some other Spanish background?

	3/21
Yes	16
No	83
Don't know	*
Refused	*

RACE. What is your race? Are you white, black, Asian or some other race? (IF RESPONDENT SAYS HISPANIC ASK: Do you consider yourself a white Hispanic or a black Hispanic? CODE AS WHITE (1) OR BLACK (2). IF RESPONDENTS REFUSED TO PICK WHITE OR BLACK HISPANIC, RECORD HISPANIC AS "OTHER," CODE 97)

Race/Hispanic Combo Table

Based on total

	3/21

Q19 HELD FOR FUTURE RELEASE

VACC2. Do you personally know anyone who has been vaccinated for COVID-19, or not? IF YES ASK: Is that someone in your household, another family member or close friend, or someone else?

*Based on those who have not gotten the COVID-19 vaccine*

	3/21	2/21	1/21 <sup>4</sup>
Yes (NET)	85	75	44
Yes, someone in household	12	8	-
Yes, another family member or close friend	56	55	-
Yes, someone else	16	11	-
No	15	24	56
Don't know	1	1	*
Refused	*	*	-
	<i>n=1,103</i>	<i>n=1,481</i>	<i>n=1,454</i>

VACC1/VACC2 Combo table

*Based on total*

	3/21	2/21	1/21
Yes, received at least one dose of a COVID-19 vaccine	32	18	6
No, did not receive COVID-19 vaccine	68	82	94
Yes, know someone (NET)	58	62	41
Yes, someone in my household has been vaccinated	8	7	-
Yes, another family member or close friend has been vaccinated	38	45	-
Yes, someone else I know, not a family member or close friend has been vaccinated	11	9	-
No, do not know someone who has been vaccinated	10	20	53
Don't know/Refused	*	*	-
Don't know/Refused	*	*	*
	<i>n=1,862</i>	<i>n=1,874</i>	<i>n=1,563</i>

<sup>4</sup> January 2021 question wording was: "Do you personally know anyone who has been vaccinated for COVID-19, or not?"

Q20. Do you feel you have enough information about (INSERT ITEM), or not? (scramble a-b)

*Based on those who have not gotten the COVID-19 vaccine*

	Have enough information	Do not have enough information	Don't know	Refused	
<b>a. Where you will be able to get a COVID-19 vaccine</b>					
3/21	67	33	1	*	<i>n=1,103</i>
2/21	55	45	1	*	<i>n=1,481</i>
1/21	43	55	1	*	<i>n=1,454</i>
<b>b. When you will be able to get the COVID-19 vaccine</b>					
3/21	53	46	1	*	<i>n=1,103</i>
2/21	36	63	1	1	<i>n=1,481</i>
1/21	37	60	2	1	<i>n=1,454</i>

Q23. As far as you know, are you currently eligible to get a COVID-19 vaccine in your state, are you currently not eligible, or are you not sure?

*Based on those who have not gotten the COVID-19 vaccine*

	3/21
Eligible	41
Not eligible	29
Not sure	30
Refused	-
	<i>n=1,103</i>

Q22. Have you personally tried to get an appointment for the COVID-19 vaccine for yourself, or not?

*Based on those who have not gotten the COVID-19 vaccine*

	3/21	2/21
Yes	20	16
No	79	84
Don't know	*	-
Refused	*	-
	<i>n=1,103</i>	<i>n=1,481</i>

Q24. Were you able to get an appointment for the COVID-19 vaccine, or not?

*Based on those who have tried to get an appointment to get a COVID-19 vaccine*

	3/21	2/21
Yes	34	25
No	64	74
Don't know/Refused	1	1
	<i>n=243</i>	<i>n=291</i>

Q25. What was the MAIN reason you were unable to get an appointment? Was it because:

*Based on those who were unable to get an appointment to get a COVID-19 vaccine*

	3/21
You did not meet the eligibility requirements	43
There were no appointments available	33
The available appointment times did not work for you	5
There were technical difficulties	4
You were unable to provide a required document	-
No vaccine available (Vol.)	6
Have registered/on waiting list (Vol.)	4
Some other reason	4
Don't know	*
Refused	-
	<i>n=146</i>

Q22/Q24/Q25 Combo table

*Based on those who have not gotten the COVID-19 vaccine*

	3/21	2/21
Yes, tried to get an appointment	20	16
Yes, was able to get an appointment	7	4
No, was not able to get an appointment	13	12
You did not meet the eligibility requirements	6	-
There were no appointments available	4	-
The available appointment times did not work for you	1	-
There were technical difficulties	1	-
You were unable to provide a required document	-	-
Have registered/on waiting list (Vol.)	1	
No vaccine available (Vol.)	1	
Some other reason	1	-
Don't know/Refused	*	-
Don't know/Refused	*	*
No, did not try to get an appointment	79	84
Don't know/Refused	*	-
	<i>n=1,103</i>	<i>n=1,481</i>

Q26. How concerned are you, if at all, that (INSERT FIRST ITEM)? (READ FOR FIRST ITEM AND IF NECESSARY FOR NEXT ITEMS: Are you very concerned, somewhat concerned, not too concerned, or not at all concerned?) (scramble a-g)

*Based on those who will wait and see, only get vaccine if required or definitely not get the vaccine*

	Very/ Somewhat Concerned (NET)	Very concerned	Somewhat concerned	Not too/Not at all concerned (NET)	Not too concerned	Not at all concerned	Not applicable (Vol.)	Don't know/ Refused (NET)	
a. You might get COVID-19 from the vaccine									
3/21	39	21	18	61	18	43	*	*	n=581
2/21	45	24	22	53	13	40	2	*	n=435
1/21	42	22	21	56	24	32	-	2	n=515
b. You might experience serious side effects from the COVID-19 vaccine									
3/21	70	42	28	30	11	19	-	*	n=581
2/21	70	44	27	29	10	19	1	*	n=435
1/21	77	47	31	21	12	9	-	1	n=515
c. The effects of the vaccine will be worse than if you actually got COVID-19									
3/21	63	37	26	36	16	21	*	1	n=581
e. It will be difficult for you to travel to a vaccination site to get the COVID-19 vaccine									
3/21	10	4	6	89	14	75	1	*	n=581
2/21	20	9	11	79	15	64	1	-	n=435
f. You won't be able to get the vaccine from a place you trust									
3/21	21	9	12	78	20	58	1	*	n=581
2/21	32	16	17	67	16	51	1	-	n=435
g. You might need to miss work if the side effects of the vaccine make you feel sick for a day or more									
3/21	45	27	18	49	14	36	5	1	n=581
2/21	43	27	16	53	15	38	4	*	n=435

	Very/ Somewhat concerned (NET)	Very concerned	Somewhat concerned	Not too/Not at all concerned (NET)	Not too concerned	Not at all concerned	Not applicable (Vol.)	Don't know/ Refused (NET)	
h. You might be required to get the COVID-19 vaccine even if you don't want to									
3/21	63	41	21	37	18	19	-	*	n=581

EMPLOY. What best described your employment situation today?

	3/21
Employed (NET)	53
Employed full-time	43
Employed part-time	10
Unemployed (NET)	11
Unemployed and currently seeking employment	8
Unemployed and not seeking employment	3
A student	5
Retired	20
On disability and can't work	6
Or, a homemaker or stay at home parent?	5
Don't know/Refused (NET)	1
Don't know	*
Refused	*

SELFEMPLOY. Are you currently self-employed, or not?

*Based on those who are employed*

	3/21
Yes, self-employed	14
No, not self-employed	86
Don't know/Refused	-
	n=920

Q27. Do you think employers should be allowed to require certain employees to get vaccinated for COVID-19, or is this not something employers should be allowed to do?

	3/21
Yes, should be allowed to require vaccination	51
No, should not be allowed to require vaccination	45
Don't know/Refused	4

Q28. If (INSERT FIRST ITEM), would that make you more likely to get the vaccine, or not? How about if (INSERT NEXT ITEM)? READ IF NECESSARY: would that make you more likely to get the vaccine, or not?] (scramble d-f; show a-c first and in order)

Table I.

Items a, b, based on those who are employed and not self-employed and who will wait and see, only get vaccine if required or definitely not get the vaccine

Item c based on those who are employed and not self-employed and not likely to get vaccine if offered extra \$50 from employer

Items d, e, f based on those who will wait and see, only get vaccine if required or definitely not get the vaccine

	Yes, more likely	No, not more likely	Don't know	Refused	
a. Your employer arranged for a medical provider to come to your place of work to administer the COVID-19 vaccine to employees who want it 3/21	25	73	2	-	n=296
b. Your employer offered to pay you an extra \$50 to get vaccinated for COVID-19 3/21	19	81	*	-	n=296
c. Your employer offered to pay you an extra \$200 to get vaccinated for COVID-19 3/21	4	95	1	-	n=236
d. The COVID-19 vaccine was offered to you during a routine medical visit at a place you normally go for health care 3/21	30	70	1	*	n=581
e. Airlines required passengers to be vaccinated before they could fly 3/21	31	67	1	*	n=581
f. The U.S. Centers for Disease Control said that vaccinated people could travel freely and would not need to wear masks in most situations 3/21	31	67	1	*	n=581

Table II.

Based on those who are employed and not self-employed and who will wait and see, only get vaccine if required or definitely not get the vaccine

	3/21
More likely if offered \$200 (NET)	22
Yes, more likely if offered \$50	19
Yes, more likely if offered \$200, but not more likely if offered \$50	3
Not more likely if \$200	77
Don't know/Refused	1
	n=296

READ IF HAVE NOT GOTTEN COVID-19 VACCINE: As you may know, there are now three different COVID-19 vaccines available in the U.S., a two-dose vaccine made by Pfizer, a two-dose vaccine made by Moderna, and a one-dose vaccine made by Johnson and Johnson.

Q29. Do you think there are major differences, minor differences, or no differences in how well these vaccines work, or are you not sure?

*Based on those who have not gotten the COVID-19 vaccine*

	3/21
Differences (NET)	40
Major differences	14
Minor differences	26
No differences	8
Not sure	52
Refused	*
	<i>n=1,103</i>

Q30. Would you say you have a strong preference, a slight preference, or no preference for which vaccine you would like to get?

Table I.

*Based on those who would get vaccine as soon as possible, wait and see, or only if required*

	3/21
Preference (NET)	52
Strong preference	28
Slight preference	24
No preference	46
Don't know	2
Refused	*
	<i>n=898</i>

Table II.

*Based on those who have not gotten COVID-19 vaccine*

	3/21
Get vaccine as soon as possible, wait and see, or only if required (NET)	79
Preference (NET)	41
Strong preference	22
Slight preference	19
No preference	36
Don't know	2
Refused	*
Definitely not get the vaccine	19
Don't know	2
Refused	*
	<i>n=1,103</i>

Q31. If you were offered the (INSERT) vaccine, would you definitely get it, probably get it, probably not get it, or definitely not get it?

*Based on those who have not gotten COVID-19 vaccine*

	Get it (NET)	Definitely get it	Probably get it	Not get (NET)	Probably not get it	Definitely not get it	Don't know/Refused (NET)	
a. Pfizer two-dose 3/21	56	29	28	42	14	28	2	<i>n=1,103</i>
b. Moderna two-dose 3/21	53	27	27	45	15	30	2	<i>n=1,103</i>
c. Johnson & Johnson one-dose 3/21	56	31	25	42	15	27	2	<i>n=1,103</i>

Q32a. What is the MAIN reason you prefer one COVID-19 vaccine over the others? (Open-end)

*Based on those who have a strong or slight preference for one vaccine over another*

	3/21
Prefer one-dose/one-shot vaccine (general)	24
The level of effectiveness	14
Have heard good/better things about it	7
Concerned about side effects/allergic reactions	7
The ingredients/formulation/technology of the vaccine (general)	6
More convenient/easier	6
Family member or friend got/recommended specific vaccine	6
Preference based on brand name/reputation	5
Due to testing/studies/clinical trials	3
Prefer vaccine that has been available for longer	2
Prefer two-dose/two-shot vaccine (general)	1
Doses/number of shots (unspecified)	1
Religious concerns/use of fetal tissue in development	1
Doctor or medical provider discussed or recommended	*
Do not have a preference	2
Would not get any of the vaccines	1
Other	8
Don't know	3
Refused	1
	<i>n=481</i>

Q34. What if you heard that (INSERT FIRST ITEM)? Would that make you more likely to get the vaccine, or not? What if you heard that (INSERT NEXT ITEM)? READ IF NECESSARY: would that make you more likely to get the vaccine, or not?] (rotate items a-h)

*Based on those who will wait and see, only get vaccine if required or definitely not get the vaccine*

	Yes, more likely	No, not more likely	Don't know	Refused	
a. More than 100,000 people from diverse backgrounds and ethnicities participated in the COVID-19 vaccine clinical trials 3/21	26	74	*	*	n=581
b. The main reason the COVID-19 vaccines were approved so quickly is because red tape that is usually part of the development process was removed, not because corners were cut 3/21	17	81	1	*	n=581
c. The vast majority of doctors who have been offered the vaccine have taken it 3/21	26	73	1	*	n=581
d. While the long-term effects of the vaccine may be unknown, the long-term effects of getting COVID-19 could be even worse 3/21	24	75	1	*	n=581
e. Even though most people who die from COVID-19 are older or have other health conditions, some young and healthy people have also been hospitalized and died from COVID-19 3/21	19	80	*	*	n=581
f. The vaccines are nearly 100% effective at preventing hospitalization and death from COVID-19 3/21	41	58	1	*	n=581
g. Although the COVID-19 vaccines themselves are new, scientists have been working on the technology used in these vaccines for 20 years 3/21	32	67	1	*	n=581
h. There is no cost to get the COVID-19 vaccine 3/21	27	73	*	*	n=581

Q35. If former President Trump came out with a message strongly urging people to get the COVID-19 vaccine, would that make you more likely to get vaccinated, or not?

*Based on those who will wait and see, only get vaccine if required or definitely not get the vaccine*

	3/21
Yes, more likely	15
No, not more likely	84
Don't know	1
Refused	*
	n=581

READ TO ALL: Now I have a few questions we will use to describe the people who took part in our survey...

AGE. What is your age?
