

Topline

KFF Health Tracking Poll – Late April 2020

METHODOLOGY

This *KFF Health Tracking Poll* was designed and analyzed by public opinion researchers at the Kaiser Family Foundation (KFF). The survey was conducted April 15th - 20th, 2020, among a nationally representative random digit dial telephone sample of 1,202 adults ages 18 and older, living in the United States, including Alaska and Hawaii (note: persons without a telephone could not be included in the random selection process). The sample included 290 respondents reached by calling back respondents that had previously completed an interview on the KFF Tracking poll at least nine months ago. Computer-assisted telephone interviews conducted by landline (261) and cell phone (941, including 661 who had no landline telephone) were carried out in English and Spanish by SSRS of Glen Mills, PA. To efficiently obtain a sample of lower-income and non-White respondents, the sample also included an oversample of prepaid (pay-as-you-go) telephone numbers (25% of the cell phone sample consisted of prepaid numbers) as well as a subsample of respondents who had previously completed Spanish language interviews on the SSRS Omnibus poll ($n=10$). Both the random digit dial landline and cell phone samples were provided by Marketing Systems Group (MSG). For the landline sample, respondents were selected by asking for the youngest adult male or female currently at home based on a random rotation. If no one of that gender was available, interviewers asked to speak with the youngest adult of the opposite gender. For the cell phone sample, interviews were conducted with the adult who answered the phone. KFF paid for all costs associated with the survey.

The combined landline and cell phone sample was weighted to balance the sample demographics to match estimates for the national population using data from the Census Bureau's 2018 American Community Survey (ACS) on sex, age, education, race, Hispanic origin, and region along with data from the 2010 Census on population density. The sample was also weighted to match current patterns of telephone use using data from the July-December 2018 National Health Interview Survey. The weight takes into account the fact that respondents with both a landline and cell phone have a higher probability of selection in the combined sample and also adjusts for the household size for the landline sample, and design modifications, namely, the oversampling of prepaid cell phones and likelihood of non-response for the re-contacted sample. All statistical tests of significance account for the effect of weighting.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Note that sampling error is only one of many potential sources of error in this or any other public opinion poll. Kaiser Family Foundation public opinion and survey research is a charter member of the [Transparency Initiative of the American Association for Public Opinion Research](#).

Group	N (unweighted)	M.O.S.E.
Total	1,202	± 3 percentage points
Party Identification		
Democrats	348	± 6 percentage points
Republicans	341	± 6 percentage points
Independents	347	± 6 percentage points
Age		
18-29	170	±8 percentage points
30-49	297	±6 percentage points
50-64	346	±6 percentage points
65 and older	388	±6 percentage points

Notes for reading the topline:

- Percentages may not always add up to 100 percent due to rounding.
- Values less than 0.5 percent are indicated by an asterisk (*).
- "Vol." indicates a response was volunteered by the respondent, not offered as an explicit choice
- Questions are presented in the order asked; question numbers may not be sequential.

All trends shown in this document come from the KFF Health Tracking Polls

READ TO ALL: I want to ask you some questions about the recent coronavirus, also known as COVID-19.

Q1. How much, if at all, has your life been disrupted by the coronavirus outbreak? (READ LIST)

	Late 4/20	Early 4/20	3/20
A lot/Some (NET)	84	72	40
A lot	56	45	16
Some	28	27	24
Just a little/Not at all (NET)	16	28	60
Just a little	11	17	29
Not at all	5	10	31
Don't know/Refused (NET)	-	*	*

Q2. In what way has your life been disrupted the MOST by coronavirus?

Q1/Q2 Combo table

	Late 4/20
Disrupted a lot/some/ a little (NET)	95
Social distancing/shelter in place restrictions (NET)	44
Unable to leave home	17
Unable to see friends and family	6
Unable to go to non-essential classified businesses/stores/everything is closed (restaurants, gyms, bars, movies, etc.)	4
Unable to be social/no personal interactions/no social life	4
Day-to-day life/routine has been disrupted	3
Misc. Difficulties going to the store/shopping mentions (hassle to get there/get in, lines, chaos at the store, etc.)	2
No leisure activities (no outdoor activities, unable to exercise/play sports, etc.)	2
Lack of freedom/choices/liberty	2
Trouble getting household supplies	1
Feeling isolated/lonely/anxious (related specifically to social distance mentions)	1
Unable to go on trips, vacations	1
Unable to go to church	1
Event (wedding, conference, etc.) Was cancelled	*
Employment disruption (NET)	26
Can't go to work	7
Lost job	6
Work/job/employment (not specific)	6
Hours were cut/pay was reduced/furloughed	4
Misc. Job/business related changes (limitations, interruptions, scheduling/duties changed, etc.)	4
Children (NET)	6
Child's school closed	3
Own education has been disrupted	2
Distance learning	1
Loss of childcare	*
Children's mental health	-
Household income (NET)	4
Finances/income (general)	4

Late 4/20	70	35	35	17	7	5	2	7

ROTATE Q5 & Q6

Q5. Please tell me if you have taken any of the following actions because of the recent coronavirus outbreak. Have you (INSERT ITEM), or not? Have you (INSERT NEXT ITEM) because of the recent coronavirus outbreak, or not? (scramble items a & b)

	Yes	No	Don't know/Refused (NET)	
a. Sheltered in place, meaning that you haven't left your home except for essential service such as food, medicine, and health care				
Late 4/20	84	16	*	N=1,202
Early 4/20	82	18	*	n=1,226
b. Bought or made a protective mask to wear in public				
Late 4/20	76	24	*	N=1,202
3/20	12	88	*	N=1,216
2/20	9	91	*	N=1,207

Q6. Thinking about the last week, how many times have you left your home to (INSERT ITEM)? (rotate 1-4, 4-1)

	4+ times/2-3 times (NET)	4 times or more	2-3 times	1 time/Not at all (NET)	1 time	Not at all	Don't know/ Refused (NET)
a. Shop for food, medicine, or essential household items							
Late 4/20	44	8	36	56	36	20	-
b. Visit close friends or family							
Late 4/20	12	3	9	88	18	70	-
c. Go to work							
Late 4/20	28	22	7	71	4	67	*
d. Exercise							
Late 4/20	36	18	18	64	7	57	*

Table II

	Late 4/20
Have shopped or visited close friends and family 4 times or more in the last week	10
Have shopped or visited close friends and family 3 times or fewer in the last week	90
Don't know/Refused (NET)	-

Q7. Which comes closer to your view: OPTION A: Strict shelter-in-place measures are worth it in order to protect people and limit the spread of coronavirus, or OPTION B: Strict shelter-in-place measures are placing unnecessary burdens on people and the economy and are causing more harm than good. (rotate 1-2, 2-1, keep Option A and Option B from rotating)

	Late 4/20
Strict shelter-in-place measures are worth it in order to protect people and limit the spread of coronavirus	80
Strict shelter-in-place measures are placing unnecessary burdens on people and the economy and are causing more harm than good	19
Don't know/Refused (NET)	1
Don't know	1
Refused	-

ESSENTIAL. Have you been deemed an essential worker, meaning you are still required to work outside your home during the coronavirus outbreak?

	Late 4/20
Yes	34
No	66

READ TO ALL: Moving onto a related topic. We are now going to ask you about an app that can be downloaded to your phone that helps with contact tracing of coronavirus...

Q9. Would you be (willing) or (unwilling) to download an app for your phone that tracks who you come into close contact with and then alerts you if you have come into contact with someone who tested positive for coronavirus so that you can take steps to protect you and your family? (rotate text in parentheses)

	Late 4/20
Willing	50
Unwilling	47
Don't know/Refused (NET)	3
Don't know	2
Refused	1

Q10. Would you be (willing) or (unwilling) to download and use an app for your phone that tracks who you come into close contact with and then provides that information to public health officials in order to track the spread of coronavirus? (rotate text in parentheses)

	Late 4/20
Willing	45
Unwilling	53
Don't know/Refused (NET)	2
Don't know	2
Refused	*

Q11. If you were tested for coronavirus, would you be (willing) or (unwilling) to use an app for your phone to share the results with public health officials in order for them to track the spread of the outbreak? (rotate text in parentheses)

	Late 4/20
Willing	68
Unwilling	29
Don't know/Refused (NET)	3
Don't know	2
Refused	*

Q12. Would you be (willing) or (unwilling) to download and use the app if you heard that (INSERT ITEM)? (scramble a-c, f, g; ask d to half sample B, ask e to half sample A)

	Willing	Unwilling	Don't know/Refused (NET)	
a. It would give you information so you can talk to your doctor about what to do Late 4/20	62	37	2	n=1,202
b. It would allow many more people to go back to work or school Late 4/20	66	32	2	n=1,202
c. It would allow many more businesses to re-open and start up the economy Late 4/20	66	32	2	n=1,202
d. The data collection is opt-out meaning people would have to actively choose not share information Late 4/20	52	45	3	n=602
e. The data collection is opt-in, meaning people would have to actively choose to share the information Late 4/20	54	43	4	n=600
f. You may get many alerts about being exposed to coronavirus, even if it was just minor and maybe even inaccurate Late 4/20	42	57	2	n=1,202
g. There is a chance that the data could be hacked Late 4/20	28	70	2	n=1,202

Q13. Would having public health officials track the spread of coronavirus using apps on people's cell phones make you feel (safer), (less safe), or would it not impact how safe you feel? (rotate text in parentheses)

	Late 4/20
Safer	35
Less safe	17
No impact	47
Don't know/Refused (NET)	1
Don't know	1
Refused	*

Q14. If data from the app was managed by (ITEM), would you be willing to download the app, or not? (scramble a-d)

	Yes	No	Don't know/Refused (NET)	Don't know	Refused
a. A private tech company Late 4/20	31	67	2	2	*
b. The federal Centers for Disease Control and Prevention, CDC Late 4/20	62	36	2	1	*
c. Your local health department Late 4/20	62	36	2	1	1
d. Your state health department Late 4/20	63	35	2	1	*

Q15. Which of the following worries you MORE about an app used to track the spread of coronavirus: (the federal government will use the data for purposes beyond tracking the spread of coronavirus OR (private companies will sell your personal data)? (rotate text in parentheses)

	Late 4/20
The federal government will use the data beyond tracking the spread of coronavirus	33
Private companies will sell your personal data	38
Neither (Vol.)	3
Both (Vol.)	22
Don't know/Refused (NET)	3
Don't know	2
Refused	1
