

WHO COULD BE REACHED BY MEDICAID EXPANSION?

UNINSURED ADULTS WHO WOULD BECOME ELIGIBLE FOR MEDICAID IN NON-EXPANSION STATES

The ACA expanded Medicaid coverage to nearly all adults with incomes up to 138% of the Federal Poverty Level (\$17,609 for an individual in 2020). If all non-expansion states were to expand its Medicaid program, **3,987,800** uninsured nonelderly adults would become eligible for coverage, **36%** of the state's uninsured nonelderly adult population.

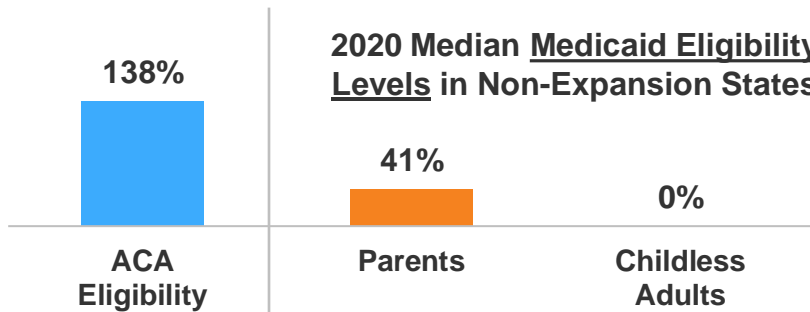

Childless Adults

Parents

75% of those who would become eligible under Medicaid expansion are childless adults, a group historically excluded from Medicaid eligibility.

Who Are Uninsured Adults Who Would Become Eligible for Medicaid in All States Expanded?

More than **7 in 10** are in a family with at least one worker.

More than **7 in 10** are adults living below poverty.

6 in 10 are people of color.

Almost **4 in 10** are middle-aged and 16% are near-elderly, who are more likely to have substantial health needs.

2,001,300 females

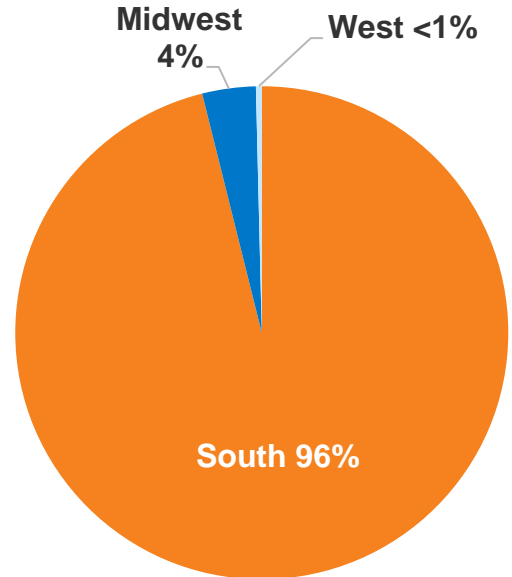

Half are female even though many females qualify for Medicaid as caregiver parents.

Where Do Uninsured Adults Who Would Be Eligible for Medicaid if All States Expanded Live?

Distribution Among Non-Expansion States

What is the Potential Impact of Medicaid Expansion?

How Would the Medicaid Expansion be Financed?

The federal government pays most of the cost of the ACA Medicaid expansion: 90% in FY 2021 and beyond.

For traditional Medicaid, the federal share varies by state from a floor of 50% to a high of 78% in FY 2021, plus a 6.2 percentage point bump during the public health emergency.
