KFF Health Tracking Poll

October 2026

KFF

METHODOLOGY

This *KFF Health Tracking Poll* was designed and analyzed by public opinion researchers at KFF. The survey was conducted September 16 – September 21, 2026, online and by telephone among a nationally representative sample of 1,328 U.S. adults in English ($n=1,237$) and in Spanish ($n=91$). The sample includes 1,015 adults ($n=72$ in Spanish) reached through the [SSRS Opinion Panel](#) either online ($n=990$) or over the phone ($n=25$). The SSRS Opinion Panel is a nationally representative probability-based panel where panel members are recruited randomly in one of two ways: (a) Through invitations mailed to respondents randomly sampled from an Address-Based Sample (ABS) provided by Marketing Systems Groups (MSG) through the U.S. Postal Service's Computerized Delivery Sequence (CDS); (b) from a dual-frame random digit dial (RDD) sample provided by MSG. For the online panel component, invitations were sent to panel members by email followed by up to three reminder emails.

Another 313 ($n=19$ in Spanish) adults were reached through random digit dial telephone sample of prepaid cell phone numbers obtained through MSG. Phone numbers used for the prepaid cell phone component were randomly generated from a cell phone sampling frame with disproportionate stratification aimed at reaching Hispanic and non-Hispanic Black respondents. Stratification was based on incidence of the race/ethnicity groups within each frame. Among this prepaid cell phone component, 142 were interviewed by phone and 171 were invited to the web survey via short message service (SMS).

Respondents in the prepaid cell phone sample who were interviewed by phone received a \$15 incentive via a check received by mail or an electronic gift card incentive. Respondents in the prepaid cell phone sample reached via SMS received a \$10 electronic gift card incentive. SSRS Opinion Panel respondents received a \$5 electronic gift card incentive (some harder-to-reach groups received a \$10 electronic gift card). In order to ensure data quality, cases were removed if they failed two or more quality checks: (1) attention check questions in the online version of the questionnaire, (2) had over 30% item non-response, or (3) had a length less than one quarter of the mean length by mode. Based on this criterion, 8 cases were removed.

The combined cell phone and panel samples were weighted to match the sample's demographics to the national U.S. adult population using data from the Census Bureau's 2025 Current Population Survey (CPS), September 2023 Volunteering and Civic Life Supplement data from the CPS, and the 2026 KFF Benchmarking Survey with ABS and prepaid cell phone samples. The demographic variables included in weighting for the general population sample are gender, age, education, race/ethnicity, region, civic engagement, frequency of internet use and political party identification. The weights account for differences in the probability of selection for each sample type (prepaid cell phone and panel). This includes adjustment for the sample design and geographic stratification of the cell phone sample, within household probability of selection, and the design of the panel-recruitment procedure.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points. Numbers of respondents and margins of sampling error for key subgroups are shown in the table below. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available on request. Sampling error is only one of many potential sources of error and there may be other unmeasured error in this or any other public opinion poll. KFF public opinion and survey research is a charter member of the [Transparency Initiative of the American Association for Public Opinion Research](#).

Group	N (unweighted)	M.O.S.E.
Total	1,328	± 3 percentage points
Total registered voters	1,013	± 4 percentage points
Party ID		
Democrats	446	± 6 percentage points
Independents	439	± 6 percentage points
Republicans	347	± 7 percentage points
Registered Voters by Party ID		
Democrats	379	± 6 percentage points
Independents	304	± 7 percentage points
Republicans	294	± 7 percentage points

Notes for reading the topline:

- Percentages may not always add up to 100 percent due to rounding.
- Values less than 0.5 percent are indicated by an asterisk (*).
- "Vol." indicates a response was volunteered by the respondent, not offered as an explicit choice.
- Questions are presented in the order asked; question numbers may not be sequential.
- No answer includes those who said 'Don't know' or refused to answer the question on the phone and those who skipped the question online.
- Question wording shown is for web mode; for some questions phone wording vary slightly.

All trended data come from KFF Health Tracking Polls, the KFF Tracking Polls on Health Information and Trust, and the KFF/Washington Post Survey of Parents. See previous methodology statements for differences in methodology for trended data. See footnotes for changes in question wording and answer options when applicable.

STATE. In what state do you reside?

AGE. What is your age?

AGE2. Which of the following ranges best fits your age?

Base: Those PPD who refused exact age

RECAGE2.

	9/26
18-29	20
30-49	34
50-64	23
65+	22
No answer	-

COVERAGE. Are you now covered by any form of health insurance or health plan or do you not have health insurance at this time?

	9/26
Covered by health insurance	90
Not covered by health insurance	10
No answer	-

AGECOV.

Base: Those 18-64 who know if they have health insurance

	9/26
Insured less than 65	88
Uninsured less than 65	12
	n=1,051

COVTYPE. Which of the following is your main source of health insurance coverage?

Base: Total insured

	9/26
Plan through (my or my spouse's/ your or your spouse's) employer	43
Plan (I/ you) purchased (myself/ yourself)	11
Medicare, the government program for adults 65 and older, and some younger adults with long-term disabilities	22
Medicaid/(STATE-SPECIFIC MEDICAID NAME), the government program for certain low-income adults and children	17
Plan through (my/your) parents/mother/father (VOL.)	5
Somewhere else	2
No answer	*

	n=1,013	n=1,084	n=1,243	n=1,072	n=1,055	n=1,291

² Question wording prior to September 2026 read: "Compared to previous presidential elections, are you (more) motivated to vote than usual, (less) motivated than usual, or about as motivated as in previous elections?"

Q2_A. Why are you more motivated to vote now than in previous elections? (OPEN END)

Base: Those who are more motivated to vote

	9/26
To bring about change	20
To stop President Trump/current administration	19
Feel like the country is in crisis	15
Cost of living concerns	11
To vote out Republicans	10
To protect democracy	9
To keep Democrats out of power	8
To end corruption	7
Want trusted leaders in government	6
Civic duty/Important to vote	6
Concerns about socialism/communism	6
To stay the course/Happy with current administration	2
To stop the war in Iran	1
Other	8
No comment	4
	<i>n=486</i>

Q2_B. Why are you less motivated to vote now than in previous elections? (OPEN END)

Base: Those who are less motivated to vote

	9/26
Think their vote does not matter/will not make a difference	23
Disappointed/No longer interested in politics	14
Dislike candidates from both parties/Dislike both parties generally	10
Not sure who to vote for/Not following this year's election	10
Don't trust politicians	10
Don't like any of the candidates	9
Dissatisfied with the high cost of living	7
Think elections are rigged	5
Dissatisfied with current administration	4
Do not think the upcoming election is an important one	4
Other	5
No comment	16
	<i>n=119</i>

Q3. How important, if at all, do you think it is for candidates in the 2026 midterm elections to talk about (INSERT ITEM)? (ROTATE 1-4/4-1)
(RANDOMIZE ITEMS A-F)

Base: Those who are registered to vote

	Extremely/ Very important (NET)	Extremely important	Very important	Somewhat important	Not important	No answer	
a. health care costs							
9/26	82	47	35	15	3	-	n=1,013
