

Kaiser Family Foundation 1997 National Survey of Americans on AIDS/HIV

Questionnaire and National Toplines

December 4, 1997

The Kaiser Family Foundation, based in Menlo Park, California, is a non-profit, independent national health care philanthropy and is not associated with Kaiser Permanente or Kaiser Industries. The Foundation's work is focused on four main areas: health policy, reproductive health, HIV in the United States, and health and development in South Africa.

**PUBLIC KNOWLEDGE AND ATTITUDES ABOUT AIDS/HIV
SURVEY II**

**PRINCETON SURVEY RESEARCH ASSOCIATES FOR
THE KAISER FAMILY FOUNDATION**

National Topline

Methodology

The 1997 *National Survey of Americans on AIDS/HIV* was designed by staff of the Kaiser Family Foundation and conducted for the Family Foundation by Princeton Survey Research Associates. The survey was conducted by telephone with 1,205 adults (age 18 or older) nationwide between September 17-October 19, 1997. The margin of sampling error is plus or minus 3 percentage points.

The Foundation last surveyed Americans on AIDS/HIV in December 1995. Where available trend data or information are noted. Some select questions also provide further trend information from other sources, each source is noted by an appropriate footnote reference.

Select questions were asked of a random half of the respondents. These questions are identified by "Form 1" or "Form 2," indicating which half answered that particular question. There were 598 respondents in the "Form 1" group and 607 respondents in the "Form 2" group. The margin of error for this split sample is plus or minus 4 percentage points.

1. My first question is... What do you think is the MOST urgent health problem facing this nation TODAY? (**OPEN-END. DO NOT READ ANSWER CATEGORIES. WAIT FOR REPLY BEFORE PROBE**) Is there another health problem you think is almost as urgent?

<u>Current</u>		<u>12/95</u>	<u>1/90¹</u>
38	AIDS	44	49
38	Cancer	27	31
21	Health insurance/access/cost	25	13
16	Heart	11	na ²
5	Drugs	4	17
3	Smoking/Cigarettes	na	na
2	Elderly	4	12
2	Excess weight/Obesity	na	na
2	Diabetes	* ³	na
14	Other	15	na
8	Don't know/Refused	8	9

Total exceeds 100% due to multiple responses.

¹ 1990 trend for Q.1 from the Los Angeles Times Poll.

² "na" indicates that a code for this specific category was not created on the earlier survey.

³ An asterisk indicates a value of less than 1%.

2. Now I'd like you to think about the way the problem of AIDS is affecting THIS COUNTRY today. Do you think the problem of AIDS is ABOUT THE SAME as it has been, that the country is MAKING PROGRESS in this area, or that the country is LOSING GROUND?

Based on form 1 respondents.

<u>Current</u>		<u>12/95</u>	<u>3/94⁴</u>
14	About the same	15	22
52	Country making progress	32	23
27	Country losing ground	48	49
<u>7</u>	Don't know/Refused	<u>5</u>	<u>6</u>
100		100	100

3. Thinking about the way AIDS is affecting YOUR LOCAL COMMUNITY today, is the problem of AIDS ABOUT THE SAME as it has been, is your community MAKING PROGRESS, is your community LOSING GROUND, or has AIDS never been a problem in your community?

Based on form 1 respondents.

<u>Current</u>		<u>12/95</u>
19	About the same	23
14	Community making progress	11
11	Community losing ground	18
41	Never been a problem	38

69 Never talked with doctor or health care provider about HIV/AIDS
0 Don't know/Refused
100

49. The last time you talked about this topic, did you bring it up, or did the doctor or health care provider bring it up?

Based on those who have talked with a doctor or health care provider about getting tested for HIV.

66 Respondent
31 Doctor or health care provider
3 Don't know/Refused
100
(n=252)

50. Do you personally know anyone who now has AIDS, has died from AIDS, or has tested positive for HIV?

<u>Current</u>		<u>12/95</u>
35	Yes	39
65	No	61
<u>*</u>	Don't know/Refused	<u>*</u>
100		100

Now I have just a few background questions so we'll know something about the people taking part in the survey...

51. I'm going to read you a list of things some people do about government or politics. Many people haven't done any of these things. As I read each one, please tell me if this is something you have done IN THE PAST 12 MONTHS. (First,) in the past 12 months have you...(READ AND ROTATE)

	<u>Yes</u>
a. Contacted a member of Congress or a U.S. Senator	17
b. Attended a public meeting on town or school affairs	35
c. Worked in the campaign of a political candidate or party	6
d. Wrote a letter to a newspaper that was published	6
e. Been interviewed or quoted by the media about an important issue	7
f. Served as an officer of some club or organization	22
g. Served on a local committee, such as school board or community council	12
h. Made a public speech	12
i. Helped organize a group or event in support of a particular cause	19

- D1. What is your religious preference? Are you Protestant, Roman Catholic, Jewish, or some other religion?

- D2. Do you consider yourself a Christian?

D3. Would you describe yourself as a born-again or evangelical Christian, or not?

63	Total Protestant/Christian
33	Evangelicals
27	Non-evangelicals
24	Roman Catholic
2	Jewish
5	Other religion
5	No religion/Atheist/Agnostic (VOL.)
<u>1</u>	Don't know/Refused
100	

D4. In politics TODAY, do you consider yourself a Republican, Democrat or Independent?

27	Republican
33	Democrat
30	Independent
1	Other Party (VOL.)
5	No party (VOL.)
2	Don't know
<u>2</u>	Refused
100	

D5. Would you say your views in most political matters are very liberal, somewhat liberal, moderate, somewhat conservative, or very conservative?

6	Very liberal
21	Somewhat liberal
29	Moderate
26	Somewhat conservative
12	Very conservative
4	Don't know
<u>2</u>	Refused
100	

D6. What is the last grade or class that you COMPLETED in school? **(DO NOT READ)**

3	None, or grade 1 to 8
12	High school incomplete (grade 9-11)
34	High school graduate
4	Business, technical or vocational school after high school
24	Some college, but no four-year degree
15	College graduate, four-year degree
8	Post-graduate or professional schooling after college
<u>*</u>	Don't know/Refused
100	

D7. How old are you?

24	18-29
43	30-49
18	50-64
<u>15</u>	65 or older
100	

D8a. Are you of Hispanic or Latino background, such as Mexican, Puerto Rican, Cuban, or some other Spanish background?

D8b. Is your background mainly Mexican, Puerto Rican, Cuban, or some other Hispanic or Latino nationality?

8	Total Hispanic/Latino background
4	Mexican
1	Puerto Rican
*	Cuban
3	Other/Mixed (VOL.)
91	Not Hispanic/Latino
<u>1</u>	Don't know/Refused
100	

D9. What is your race? Are you white, black, Asian, or some other race?

83	White
11	Black or African-American
1	Asian
3	Other/mixed race (VOL.)
*	Don't know
<u>2</u>	Refused
100	

D10. Last year, that is in 1996, what was your total family income from all sources, BEFORE taxes? Just stop me when I get to the right category.

9	Less than \$10,000
12	\$10,000 to under \$20,000
10	\$20,000 to under \$25,000
10	\$25,000 to under \$30,000
15	\$30,000 to under \$40,000
9	\$40,000 to under \$50,000
14	\$50,000 to under \$75,000
11	\$75,000 or more
4	Don't know
<u>6</u>	Refused
100	

I have just a few more questions. Let me remind you that this a completely confidential interview and that there are no right answers...

D11. In general, how comfortable would you be, personally, working with someone who has HIV -- very comfortable, somewhat comfortable, somewhat uncomfortable, or very uncomfortable?

32	Very comfortable
33	Somewhat comfortable
21	Somewhat uncomfortable
12	Very uncomfortable
<u>2</u>	Don't know/Refused
100	

- D12. In general, how comfortable are you, personally, being around homosexuals -- very comfortable, somewhat comfortable, somewhat uncomfortable, or very uncomfortable?

<u>Current</u>		<u>12/95</u>
31	Very comfortable	32
30	Somewhat comfortable	29
15	Somewhat uncomfortable	15
20	Very uncomfortable	17
2	Never around homosexuals (VOL.)	5
<u>2</u>	Don't know/Refused	<u>2</u>
100		100

- D13. Have you, yourself, ever been tested for HIV, that is, the virus that causes AIDS? **(IF YES, ASK: Was that in the last 12 months or not?)**

<u>Current</u>		<u>12/95</u>
16	Yes, tested within past 12 months	16
22	Yes, tested but prior to this year	21
60	No, never tested	61
<u>2</u>	Don't know	<u>2</u>
100		100

- D14. The last time you were tested, did you discuss your test results with a doctor, other medical professional, or counselor?

Based on those who have been tested for HIV.

50	Yes
50	No
<u>*</u>	Don't know/Refused
100	
(n=484)	

D15. What is the main reason you haven't been tested for HIV? Is it that... **(READ IN ORDER)**

Based on those who have never been tested for HIV.

2	You don't like needles or giving blood,
21	You're not sexually active,
61	You're married or in a monogamous relationship,
1	You're afraid you'll test positive for HIV, OR
6	Some other reason?
6	No need/No reason to suspect a problem (VOL.)
<u>3</u>	Don't know/Refused
100	
(n=701)	

D16. As you may know, HIV tests are now being developed that would not require using a needle or taking blood. For example, one new test for HIV would place a sponge inside your mouth for just a few minutes. How likely would you be to use an HIV test that does not require using a needle or taking blood? **(READ)**

35	Very likely
20	Somewhat likely
8	Somewhat UNlikely, OR
32	Very UNlikely?
3	Don't know
<u>2</u>	Refused
100	

D17. GENDER

48	Male
<u>52</u>	Female
100	

That completes the interview. Thank you very much for your time and cooperation. Have a nice day/evening.

**PUBLIC KNOWLEDGE AND ATTITUDES ABOUT HIV/AIDS
OMNIBUS QUESTIONS**

**PRINCETON SURVEY RESEARCH ASSOCIATES for
KAISER FAMILY FOUNDATION**

OMNIBUS TOPLINES
November 24, 1997

Methodology

The 1997 Kaiser Family Foundation Omnibus Survey was designed by staff of the Kaiser Family Foundation and conducted for the Foundation by Princeton Survey Research Associates. The survey was conducted by telephone with 1,009 adults (age 18 or older) nationwide between November 20 -23, 1997. The margin of sampling error is plus or minus 3 percentage points.

Select questions were asked of a random half of the respondents. These questions are identified by "Form 1" or "Form 2," indicating which half answered that particular question. There were 488 respondents in the "Form 1" group and 521 respondents in the "Form 2" group. The margin of error for this split sample is plus or minus 5 percentage points.

Now I have some questions about AIDS and HIV, the virus that causes AIDS...

1. Do you agree or disagree with the following statement -- the AIDS epidemic is over? (Is that completely or somewhat agree/disagree?)

1	Completely agree
1	Somewhat agree
10	Somewhat disagree
88	Completely disagree
*	Don't know
100	

2. Do you favor or oppose needle exchange programs, which offer clean needles to IV drug users in exchange for used needles, to help stop the spread of HIV?

Based on form 1 respondents

		<u>Sept/Oct 97</u>	<u>12/95¹</u>
64	Favor needle exchange programs	58	66
30	Oppose needle exchange programs	38	30
<u>6</u>	Don't know	<u>4</u>	<u>4</u>
100		100	100

3. Some people favor offering clean needles to IV drug users in exchange for used needles because it helps to reduce the spread of HIV. Others oppose needle exchange programs because they feel these programs send the message that it's okay to use illegal drugs. Which one comes closer to your view?

Based on form 2 respondents

		<u>Sept/Oct 97¹</u>
48	Favor needle exchange programs because it helps reduce spread of HIV	43
46	Oppose because programs send the wrong message	53
<u>6</u>	Don't know	<u>4</u>
100		100

4. Several different government agencies and independent scientific organizations, including the National Academy of Sciences, have concluded that needle exchange programs are effective at reducing HIV infections among IV drug users without increasing their drug use. Knowing this, would you now favor or oppose needle exchange programs? (*Asked only of those who oppose needle exchange programs in Q.2/3; results shown below are based on total.*)

<u>Form 1</u> <u>(Asked Q.2)</u>	<u>Form 2</u> <u>(Asked Q.3)</u>	
73	60	Total favor needle exchange programs
64	48	Favor initially in Q.2/3
9	12	Switched to favor in Q.4
20	32	Still oppose after hearing Q.4
<u>7</u>	<u>8</u>	Don't know
100	100	

¹ Trend question used variant wording: "Do you favor or oppose having clinics make clean needle available to IV drug users to help stop the spread of AIDS?"

5. Currently, the federal government provides states and local governments with funding for a number of HIV prevention activities. However, these funds may not be used to support needle exchange programs. Which comes closer to your view **(READ AND ROTATE OPTIONS)**:

34 A- The law should stay as it is, and federal funds SHOULD NOT be used for needle exchange programs

OR

61 B- The law should be changed, and state and local governments should decide for themselves whether to use their federal funds for needle exchange programs

5 Don't know
100

6. Do you think high schools should just provide teenagers with information about AIDS and how it is spread, OR do you think high schools should go further and make condoms available to those teenagers who want them?

		Parents with children 18 or younger	12/95
52	Just provide information about AIDS	50	49
44	Make condoms available	47	46
2	It depends (VOL.)	2	0
1	Don't want AIDS education in schools (VOL.)	7	1
<u>1</u>	Don't know	<u>1</u>	<u>4</u>
100		100	100
